

What to Know Before Using Core Vu™

Scheduling Your Appointment

- Core Vu™ is available in **25-minute time slots** that allow you to consult with our professional sonographers who are available to you in real-time to answer any non-diagnostic questions you have about your scanning, and to provide additional help in capturing perfect images.
- To schedule an appointment, follow the steps on the website. You may provide additional information such as the patient's species, breed, gender, or age, or what is being scanned, etc. in the notes section.
- Instructions for creating a Reacts account will be received in the confirmation email following booking an appointment. Additional instructions will also be included. Please note you will need to email our Core Vu™ coordinator with your Reacts username **prior to the scheduled appointment.**
- Scanning terms and additional information about Core Vu™ can be found on our website.
- All Core Vu™ packages and single sessions will be charged in its entirety upfront. If a single session appointment is not cancelled within 24 hours, a partial refund will be returned excluding a \$35 service fee. Missed appointments will be charged in its entirety. Package appointments may be rescheduled within 24 hours, but missed appointments will result in the appointment being deducted from your remaining package total.
- If a concern arises with a scheduled appointment, please call Geoff at 616.785.2673.
